

SYLLABUS

Name of the course (as specified in the approved curriculum) Seminar I		Number of ECTS credits 1	
Name of the course in Polish Seminarium I			
Unit providing the course Departments of the Faculty of Veterinary Medicine and Animal Science			
Course co-ordinator Faculty of Veterinary Medicine and Animal Science academic staff appointed by the Vice-Dean for Studies in the Field of Animal Production Management			
Field of study Animal Production Management	Level II – master studies	Profile Academic-general	Semester 2
TYPE OF CLASSES AND COURSE LOAD (Classes with teacher and student's own work)			
Mode of studies: full-time		Mode of studies: part-time	
- lectures	0	- lectures	-
- classes	15	- practical classes	-
- field classes	0	- field classes	-
- labs	0	- labs	-
- consultations	2	- consultations	-
- own student's work	10	- own student's work	-
- others	0	- others	-
Total number of hours		27	Total number of hours
OBJECTIVE OF THE COURSE			
The aim of the course is to provide students with knowledge and practical skills in preparing a diploma thesis, including understanding copyright issues, designing and delivering a multimedia presentation in the field of animal science, and developing, discussing, and critically evaluating the research concept and assumptions underlying their diploma thesis.			
TEACHING METHODS			
Interactive exercises, discussion, multimedia presentation			
Course learning outcomes			The reference to the study field learning outcomes
Knowledge	<p>O1: the student has advanced knowledge of preparing scientific articles, including a diploma thesis, based on the specific methodological principles related to modern animal production, as well as understanding the copyright rules.</p> <p>O2: the student has comprehensive knowledge of hypothesis testing and the presentation and interpretation of various study designs.</p>		<p>AP2A_W02 AP2A_W03</p>

Skills	<p>O3: is able to interpret information from open-access sources in animal science and effectively communicate it orally.</p> <p>O4: can discuss scientific topics related to animal science with specialists in a foreign language, using appropriate terminology in the field.</p> <p>O5: is able to professionally present research results in oral, written, or graphical form.</p>	<p>AP2A_U01 AP2A_U02 AP2A_U06</p>
Social competences	<p>O6: The graduate understands the need for lifelong learning and updates their cognitive skills, as well as inspires and organizes the learning process of other people, has a creative attitude, and can think and act in an entrepreneurial way.</p> <p>O7: The graduate interacts and works in a group, assuming various roles of the group members, including the role of a leader.</p>	<p>AP2A_K01 AP2A_K02</p>
<p>Methods for verifying learning outcomes Assessment of the prepared presentations, evaluation of teamwork (including discussion), evaluation of the ability to search the literature, and the use of specialist language.</p>		<p>Symbols of course learning outcomes O1-O7</p>
<p>TEACHING CONTENTS</p> <p>Content of exercises: Principles of diploma thesis preparation, including topic selection, structuring, and academic writing standards; Copyright issues and ethical considerations in scientific work; Designing, preparing, and delivering multimedia presentations in the field of animal science; Formulation of research questions, hypotheses, and objectives for diploma thesis project; Critical discussion and evaluation of research concepts and methodological approaches.</p> <p>Assignment forms: Preparing a multimedia presentation concerning the current status of the thesis and selected specialist literature.</p>		
<p>Forms and criteria for completing the course Credit is based on the average ratings of the presentations and the assessment of student activity during classes.</p>		<p>Percentage of a final grade 100%</p>
<p>Literature list</p> <p>Core literature Specialized scientific journals in the field of students' scientific specialization.</p> <p>Additional literature Review articles related to students' scientific specialization.</p>
