

SYLLABUS

Name of the course (as specified in the approved curriculum) Thesis preparation II		Number of ECTS credits 5	
Name of the course in Polish Przygotowanie pracy dyplomowej II			
Unit providing the course Departments of the Faculty of Veterinary Medicine and Animal Science			
Course co-ordinator Faculty of Veterinary Medicine and Animal Science academic staff - research supervisor			
Field of study Animal Production Management	Level II – master studies	Profile Academic-general	Semester 4
TYPE OF CLASSES AND COURSE LOAD (Classes with teacher and student's own work)			
Mode of studies: full-time		Mode of studies: part-time	
- lectures	0	- lectures	-
- classes	0	- practical classes	-
- field classes	0	- field classes	-
- labs	0	- labs	-
- consultations	25	- consultations	-
- own student's work	100	- own student's work	-
- others	0	- others	-
Total number of hours		125	Total number of hours
OBJECTIVE OF THE COURSE			
The aim of the course includes thesis preparation, analyses, visualization, and interpretation of research results based on the diploma thesis, as well as regular consultations with the MSc thesis supervisor.			
TEACHING METHODS			
Analysis of scientific publications. Discussion of research results.			
Course learning outcomes			The reference to the study field learning outcomes
Knowledge	O1: the student at an advanced level understands the purpose, framework, and structure of preparing a scientific work, such as a diploma thesis.		AP2A_W03
Skills	O2: is able to verify knowledge and critically assess a self-written diploma thesis, including the presentation of data in written and graphical forms. O3: is able to fluently use scientific nomenclature relevant to the diploma thesis topic. O4: is able to validate the planning, design, and conduct experiments related to the diploma thesis, as well as compare the results with other scientific data and/or the reports from the agriculture and/or animal science sectors.		AP2A_U01 AP2A_U02 AP2A_U03 AP2A_U10
Social competences	O5: lifelong learning and updating of one's cognitive skills, as well as inspiration and organization of the learning process of other people, creative attitude, entrepreneurial thinking, and acting O6: is aware of the ethical and social responsibilities related to the conduct of experiments, the accuracy of obtained results, and the preparation of the diploma thesis in accordance with copyright law.		AP2A_K01 AP2A_K03

<p>Methods for verifying learning outcomes Assessment of the student's ability to verify material and methods, discuss findings in the context of the other knowledge sources, and use specialized specific terminology.</p>	<p>Symbols of course learning outcomes O1-O6</p>
<p>TEACHING CONTENTS</p> <p>Preparation and editing of the diploma thesis; analysis, visualization, and interpretation of experimental and literature-based data; critical discussion and comparison of results with other scientific publications; integration of findings into the structure and content of the thesis; development of scientific communication skills in written, oral, and graphical forms.</p>	
<p>Forms and criteria for completing the course Credit based on the submitted diploma thesis.</p>	<p>Percentage of a final grade 100%</p>
<p>Literature list</p> <p>Core literature Original scientific articles recommended by the thesis supervisor related to the thesis topic.</p> <p>Additional literature Review articles recommended by the thesis supervisor related to the thesis topic.</p>
